### FOCUS ON THE WOMAN

is a history of people. During the past century, it was the customs and dogmas that laid the foundations of the modern labor industry we know today. The liberation of women from constricted confinement, the creation of ready-to-wear clothing, fabric, knitting, machine appliances, household brands, labor unions, maternity and even protection of intellectual property rights, are each a direct result of the ingenuity, tenacity and creative spirit of individuals who were in their lifetime religious and societal innovators.
